SOLUTIONS FOR THE EDIBLE OIL STORAGE TANK

AMBAJI IMPORTS

OUR MISSION:

Our mission is to build a healthier nation by fostering innovation and upholding high standards. We are dedicated to creating a positive impact, nurturing well-being through state-of-the-art solutions, and having an unwavering commitment to excellence.

OUR VISION:

Building a nation with a healthy lifestyle through Innovative, Quality, Accessible and Sustainable Solutions.

WHY AMBAJI IMPORTS

Advanced Infrastructure: Our state-of-the-art infrastructure, encompassing skilled manpower, robust security, firefighting systems, and comprehensive support makes us the preferred supplier for leading oil producers worldwide.

Skilled Team: Our team comprises experienced and specialized professionals dedicated to every aspect of terminal operations. Continuous training ensures we stay at the forefront of industry advancements, enabling us to provide unparalleled service to our clients.

Tailored Solutions: We offer a range of tank sizes, including options with heating and insulation, to meet the specific needs of your edible oil requirements. Our customized solutions ensure a perfect fit for your operations.

Trusted Partner: Renowned by many of the world's leading edible oil producers, we provide everything from individual storage tanks to complete tank farm projects, establishing us as a trusted partner in the industry.

Diverse Capacity: Range Our tanks, with designs up to 25 meters in diameter, span a total of 43 units, offering a combined capacity of 68,378 KL. This diverse range ensures we can meet various storage needs effectively.

Location Advantage: Kandla Port, AMBAJI IMPORTS offers a strategic advantage with world-class infrastructure. Our prime location facilitates efficient logistics and rapid distribution, ensuring timely delivery and reduced transportation costs. This benefits our clients by enhancing operational efficiency and providing seamless access to global markets.

AMBAJI IMPORTS YOUR TRUSTED PARTNER

Ambaji Import Pvt Ltd has endeavoured with a new facility of Liquid Terminal dedicated for edible oil storage at the Port of Kandla, India.

The terminal is one of India's state-of-art, well designed having independent storage facility for vegetable oils with a total capacity of 48550 KLS to cater for the needs of customers.

Our terminal is Located on the west coast of India, the Port of Kandla is one of the busiest ports in the country and the largest for chemicals and vegetable oil imports. The port has good logistic connections with the hinterland of northern India and the Greater Gujarat area where most of India's such industries are located.

Amabji Terminals, Kandla, consists of 31 fixed cone roof tanks with connections to 5 shared jetties owned and operated by the Port of Kandla. The terminal will continue to serve our existing international and domestic customers. India is seeing rapid growth in the production and consumption of vegetable oils. The acquired storage terminal in the Port of Kandla is very well positioned to support the logistic product flows resulting from this growth.

We believe in maintaining customer relationships and partnering with our principals. Our proven solutions and models fulfil the critical storage needs and requirements of our customers.

LEADING THE WAY WITH ADVANCED PLANT FEATURES

STORAGE TANK DATA

Efficient Shipping Preparation for Edible Oil Storage Terminals

- » A total of 31 Nos of tanks are available with different storage capacities ranging from approx. 510 KL to 2100 KL such as 510KL/1000KL/ 1500KL/ 2100KL, Total Capacity – 48450 KLS.
- » 12 Tanks to be constructed with a capacity of 19855 Kls
- » 12" MS Offshore pipeline connectivity from Kandla Port Liquid jetty to our terminal with capacity to discharge 400 to 500 CBM/Hour.
- » State-of-art inventory management system.
- » Professional & Customer Oriented Operational & Commercial Team.
- » Hygiene Facilities for surveyors and Other Stake Holders.
- » Single Window Operations Through Control Room.
- » End to end Logistics Solutions for the refinery based at Kutch on a long-term basis.
- » 24x7 Operational.
- » 01 Nos of 100MT Electronic Weighbridge

ROAD TANKER FILLING FACILITIES

- » Dedicated loading/unloading facilities for each tank provided with individual pipelines ensuring zero risk of cargo migration and contamination. Cargo discharge/delivery is monitored and recorded.
- » Dedicated Pump House & Dedicated Road tankers filling stations are available.
- » 8 Road Tankers can be loaded simultaneously in one hour with loading pumping capacity of 120 CBM/Hour.
- » Multiple Grades of Vegetable oil can be loaded simultaneously.

RADAR GAUGING FACILITY

Efficient Shipping Preparation for Edible Oil Storage Terminals

- » All cargo stocks in the tanks are continuously monitored and recorded on an hourly basis using the advanced Raptor gauging system. The latest software and networking technology ensure accurate data collection and reports are generated and sent via email.
- » Our Complete Automated Cargo Documentation Unit (CDU) eliminates the need for manual intervention, ensuring seamless and accurate stock updates.
